Important information for Coaches, Athletes and Crew Members World Rookie Final Sk8/ Skate Halle Innsbruck 01.-03.10.2021

Dear dear Athletes and Coaches. Please read through the following rules carefully. These regulations are established by the Austrian Federal Ministry of Health. It is your responsibility to inform yourself and make sure to follow these rules without exceptions.

1. What is important:

Take personal responsibility very serious

hygiene measures at all times (regular hand washing, regular disinfection) maintain a minimum distance of 1 meter in all areas (social distancing)

The measures to contain the coronavirus in Austria have been eased, but a number of special safety measures apply. The 3G rule (short for German "geimpft, getestet, genesen – vaccinated, tested, recovered") is used to define low-risk groups in epidemiological terms. The "Green Pass" confirms that you are tested, vaccinated or have recovered from Covid-19. In Everyone over six years of age must comply with the 3G rule.

Everbody (athletes, coaches and staff) who wants to get an accreditation for the event need to present a negative COVID—19 test result - PCR (72 hours valid) or Antigen (24 hours valid) or a proof of vaccination or recovery at the Registration Tent (World Rookie Tour).

When entering, the *contact details must be deposited* at the Registration Tend without exception

2. What means Tests, Vaccination or Recovered under the 3 G Rule?

The following rules apply if you have been **vaccinated** against Covid-19:

- Under the 3G rule, you need to be fully vaccinated (two doses). A full vaccination is valid for the 3G rule for a total of 360 days (nine months) from the day you received your 2nd dose.
- If the vaccine you received requires no booster shot (e.g. Johnson & Johnson), the first vaccination is valid for the 3G rule from the 22nd day after the vaccination for a total of nine months. Again, the nine months are counted from the day of vaccination.
- If you have recovered from Covid-19 and received your first vaccination, you are in the 3G group for nine months from the day of vaccination.

If you have **recovered** from Covid-19, you do not have to test for the virus for six months from the end of the infection. You need your quarantine order or a medical certificate from your doctor to prove you have recovered from the infection. A positive test for antibodies neutralising the virus is valid for three months from the date of testing.

Tests remain valid for different periods of time:

- PCR tests are valid for 72 hours from the time of taking the sample.
- Antigen tests are valid for 24 hours from the time of taking the sample.

3. COVID-19 Communication

 in case of COVID-19 symptoms immediately inform the COVID-19 Manager Stefan Ebner <u>stefan.ebner@scibk.at</u> / +43 650 9096020 who is the Covid Manager for the Event
